Hi Chuck:

Thank you.

Linda is currently in the meeting with WDNR, so we could check to verify after her meeting if she believes it is clear to Jim Payne the sampling we have done in 2017 and 2018 in northeast Juneau County, Wisconsin.

Sincerely,

Cheryl Burdett

Sorry – I got started late. Anyhow, I don't have any comments.

Maybe just mention to Linda that it seems to us that Payne isn't aware of the 2017 EPA sampling and that she should remind him of the totality of the sampling we have done?

Subject: NE Juneau County Investigation

Pat,
Linda came over to ask Cheryl about the website yesterday and noted that she will be on a conference call this morning at 8:30 with Wisconsin DNR. Cheryl said we were working on a summary and LH said that would be great if there was something available to share with Wisconsin DNR. Please note that Cheryl shared this with Chuck COB yesterday – we have not heard from him.

There are two questions that would offer that could be helpful if Linda could ask Wisconsin DNR: (Pat, can you think of anything else that we should ask??)

1. What managers and staff should EPA be in contact with at Wisconsin DNR on matters related to Northeast Juneau County Investigations? Would a communications plan be helpful?
2. Is anyone from Wisconsin DNR attending the July 17th educational session? Who? Would it be helpful to have a staff level nuts and bolts call between Wisconsin DNR, EPA, and the health departments in advance?

We also need to know what the decision is as to whether EPA will be sending representatives the educational session on July 17, 2018.
